

The workshop for dexterous hands

The workshop for dexterous hands is a project that we started in December 2017 and since then we have been constantly expanding our range and inventing new and new products for you and now also fun events such as fairytale trails and a program for your outdoor school or birthday party. For hotels, we devise and implement animation programs not only for families with children, but also, for example, for seniors.

Programs for children are always inspired by classic Czech fairy-tale creatures and especially by the ruler of the mountains, Krakonoš.

The workshop is open to the public (opening at home varies according to the seasons, current info here or on FB) or you can make a reservation for any day, reservation is possible for at least 6 producers. Larger groups can use our service to come to the hotel / boarding house / school with a workshop ... when making such a reservation, it is necessary to select the product (s) in advance. The capacity of the workshop is a maximum of 28 people.

We have new premises since spring 2021, you will find us right on the square :-)
