

Horseback riding

The farm, surrounded by herds of grazing Hucul horses, with a captivating view of the Giant Mountains and the valley of the river Jizerka, attracts not only lovers of riding with its rugged beauty and impressive atmosphere.

The farm offers horseback riding for small and large (even in the field), horseback riding lessons, sitting in a timbered pub and a large playground, in which, outside the winter months, a herd of mountain goats roam - the family consists of a goat Matěj, five goats and a herd of kids . The playground was built and maintained by students of figurative sculpture at Brno University of Technology.
