

# Singletrek Benecko

What is a single track?

It is an ingeniously designed network of forest terrain trails for cyclists, which are built and maintained according to precise rules with maximum respect for the surrounding nature. The trails are one-way, mostly divided by color according to difficulty, similar to the slopes. They are very playful and yet safe. Depending on the performance, the cyclist can choose from different lengths of circuit. Both a complete beginner and an experienced rider will get their money's worth.

What is it like in Benecko?

Yes, it really is, the Air Spa in the Giant Mountains has its own single track. On Saturday, July 27, 2019, the Benecko Singltrek was opened to the public. This is a 1,300 m long circuit of easy difficulty, ideal for children.

A small circuit of a single track, you will find in the woods behind the playground of Hanč's sports club. Its beginning, the starting point, is directly from the P3 car park (at the crossroads), on the road between the Kubát Hotel and the bend at Bellevue.
